

KVCAP Thanks Volunteer Drivers

KVCAP Transportation Services provides transportation to thousands of residents of Kennebec and Somerset Counties. A large portion of this transportation is provided by a dedicated corps of volunteer drivers who use their private cars and receive a mileage reimbursement for their services. These drivers provide essential transportation to medical facilities, children's services, developmental programs, protective services, behavioral health services and a broad range of other services and programs. This remarkable group of individuals provided passengers with **81,500 trips** while transporting them **4.5 million miles** during the last fiscal year. KVCAP is very proud of the contributions provided by the **115 volunteer drivers** on behalf of the organization.

Thank you for your remarkable work and your contribution to our communities!
