

Kennebec County Diaper Drive

Diaper Round Up!

September 23rd – September 29th

The Challenge

- 1 in 5 children in Kennebec County live in poverty.
- Diapers can cost over \$100 a month!
You can't buy diapers with food stamps.
- 36% of mothers living in poverty regularly run out of clean diapers.
- Mothers who don't have a consistent supply of diapers for their babies feel guilt, anxiety, and increased stress.

The Risks

- Babies who remain too long in a soiled diaper have higher health risks.
- Babies with severe diaper rash often cry more. This combined with the stress of living in need can lead to child abuse.
- Babies who cry excessively are the most likely to be victims of shaken baby.
- Without diapers, parents cannot bring their child to most daycares, leaving them unable to go to work.

The Solution – You can help...Donate today!
